

# Exhibit Featuring New York Power Authority's NY Energy Manager Launches at Building Energy Exchange.

*NY Energy Manager drives insights to improve building energy performance, sustainability, and savings through equipment-level metering, real-time data, advanced analytics software, and expert advisory services. Building Energy Exchange is thrilled to give an inside look at NY Energy Manager through this exhibit at BE-Ex's center of excellence.*

*A panel event on December 11, 2019 will accompany the unveiling of this new exhibit.*

*NYPA President & CEO Gil C. Quiniones and additional industry leaders will help celebrate the exhibit launch.*

December 09, 2019

On December 11, the New York Power Authority (NYPA), the largest state power organization in the United States, and the Building Energy Exchange (BE-Ex), a non-profit dedicated to reducing the effects of climate change by improving the built environment, celebrate the launch of a new exhibit highlighting NYPA's NY Energy Manager.

The NY Energy Manager provides digital energy management services and is one of many initiatives NYPA has designed to fulfill its mission of providing customers with innovative energy infrastructure and services.

"The Building Energy Exchange is excited to launch this new exhibit," said **Richard Yancey, Executive Director of the Building Energy Exchange**. "It is great to see NYPA's NY Energy Manager help building professionals improve the performance and reduce the environmental impact of their portfolios. BE-Ex is eager to inspire our audience – thousands of architects, engineers, building owners, managers, and contractors – by sharing this story."

"NYPA's New York Energy Manager uses advanced data analytics to help thousands of New York State buildings better manage their energy usage and reduce costs," said **NYPA President and CEO Gil C. Quiniones**. "The statewide, innovative energy management system shows NYPA's technological leadership and moves us one step closer to becoming the nation's first all-digital utility."

A public launch party at the Building Energy Exchange center will accompany the unveiling of this new exhibit. This event will feature presentations by NY Energy Manager customers as well as a panel conversation with time for questions. This event will be open to the public; registration details can be found at <https://be-exchange.org/simplified-sustainable-savings-an-inside-look-at-nypas-ny-energy-manager/>.

Speakers at the opening will include Gil C. Quiniones, President & Chief Executive Officer of NYPA; Sarah Orban Salati, Executive Vice President & Chief Commercial Officer at NYPA and a board member at BE-Ex; Tom Lanzilotta, Campus Sustainability and Energy Manager at Stony Brook University; Cyril Toussaint, Director of Energy Management & Sustainability at NYC Health + Hospitals; Emilie Bolduc, Vice President of NY Energy Manager at NYPA; and Yetsuh Frank, Managing Director of Programs and Strategy at BE-Ex. Event attendees will include building industry professionals from across the sector.

The *NY Energy Manager* exhibit will be on view through December 2020.
