About BE-Ex a Center of Excellence for energy efficiency

The Building Energy Exchange works to reduce the affects of climate change by improving the built environment.

We accelerate the transition to healthy, comfortable, and energy efficient buildings by serving as a resource and trusted expert to the building industry.

We look forward to continuing our work with each of you, as together we make New York the global model, transforming it into a cleaner and greener city, built to last.

BE-Ex by the numbers the impact of our Center of Excellence

In 2019, BE-Ex:

Hosted over **230** events, programs, and trainings that were attended by nearly **7,500** people.

Published & presented **75+** reports, case studies, tech primers, trainings, exhibits, and content videos.

Won **2** major awards:

- Beverly Willis Architecture Foundation Leadership Award for our Women in Sustainability & Energy (WISE) series.
- Leaders in Community Engagement Award, recognizing our innovative *Turning Data into Action* report.

Delivering Educational Programming

serving as a trusted expert to the building industry

Our robust programming included popular series:

Climate Mobilization Act (LL97) Series

6 events featured experts directly involved in the development of the CMA legislation and attracted over 1,000 attendees.

Celebrate NYC Series

8 events showcased prominent energy efficient building renovations and retrofits that were featured in our Celebrate NYC Exhibit.

We are proud to have celebrated **5 years** of **Women in Sustainability & Energy** programming.

- 23 events & programs
- 50+ women leaders featured
- 1,500+ attendees
- 500k+ social media impressions

Developing Energy Efficiency Resources

connecting decision makers with actionable information

We developed 75+ reports, case studies, exhibits, primers, trainings, and videos. We are especially proud to have provided our community with:

High Performance Technology Primers introducing readers to leading-edge solutions that can help save energy and improve comfort.

Climate Mobilization Act (LL97) Resource Library providing resources that demystify the CMA and connect our community to relevant solutions.

Partner Exhibits highlighting the important work of NYPA & NYSERDA through interactive displays at our center.

Expanding Our Reach broadening our network & impact

We reached new building industry stakeholders by:

Delivering our Passive House Primer 13 times off-site at professional offices across New York City.

Consulting on the creation of a building energy efficiency hub in Washington, DC.

Live streaming our programming to Vancouver, Canada and other cities around the world.

We are thrilled to be hosting exhibits and programming to support **NYSERDA's Buildings of Excellence** competition, which awards millions of dollars to encourage the construction and operation of carbon-neutral buildings.

Looking Forward

2020 promises to be a banner year

Anatomy of an Energy Efficient Building, our major exhibit launching in 2020, will demystify energy efficiency and help building decision makers identify opportunities for improvements and take action.

Six building systems will be featured:

- heating
- cooling
- ventilation
- envelopes
- domestic hot water
- lighting & plug loads

2020 marks Building Energy Exchange's 10-year anniversary. We look forward to celebrating this important milestone with all those who have helped make it possible!
